Gemb reports (under evidence or prop)  
Got neither dispute nor answer,  
just typical exercise unrestrained  
FBI power. It does whatever illegal  
thing it desires, answering to no one.  
P2 par 2 suppression of this picture  
is another brute display. The FBI  
engaged in a knowing whitewash of  
this part of the assassination story.  
It failed to use this recent picture  
of the men (WWII, C7, NO \_\_\_\_) But  
because the FBI acted as the Com's  
inv., this picture belongs in the  
arch. The FBI is a law unto itself. The  
picture is not there, and these men  
and their possible part in the ass sto  
story is, as best the FBI can manage it  
still suppressed and misrepresented.

Par 3, aut notes. explain originals  
must exist, xerox in record, refer  
back. The failure to produce these  
notes after I requested them and establ  
establishe d they were required to be i  
in the arch means suppression is deli  
berate. The originals exist and there  
is no telling how many xeroxed copies  
except the one place they are required  
to be, the one place those familiar with  
the story of the ass as the members of  
the Com were not can see and study.
